Using WinSCP to upload your assignment to your cse folder
Run WinSCP and enter Host info (login.cse.unsw.edu.au, port: 22)
Enter your cse-user name and password
you have access to your local folders in one side and your home directory (on cse server) on the other side
Go to public_html folder in cse side
Go to your local folder which has assignment folder
Select your assignment folder
Use ‘Files’ in Menu and Choose ‘Copy’
Choose ‘More’ Button
Make sure permission has three ‘r’ and then Press ‘Copy’ Button
The assignment folder must be copied in other side
Exit from the WinSCP
Check if the assignment is accessible
use http://www.cse.unsw.edu.au/~username/assn1
and choose the html file
