COMP3211/COMP9211 Computer Architecture

Lab 2 (Week 4)

Project work

Goal: Project work discussion. Aim to have a definite plan of action with a realistic schedule to be ready for the presentations in Week 6.

Task 1: Within your project groups decide upon:

1) your project plan,
2) the role of each team member, and
3) how you can ensure the project progress smoothly and successfully.

Task 2: Within your project groups:

1) Demonstrate the work you have completed so far.
2) Discuss the problems you have encountered and possible solutions.
3) Discuss which instructions you need to add to the SCC from Lab 1 in order to compute the MATDIFF program.
4) Discuss the modifications needed to the SCC in order to implement your instructions.
