

COMP3211/9211 11s1

Tutorial 9 (Week 12)

1. Questions that were left from the last tutorial (Week 11).
2. A bus connects 10 devices, D0 to D9. D1, D3, D5, D9 are bus masters. Assume the device with a high number has a higher priority than a device with a low number, namely, D9 has the highest priority. Draw a daisy chain arbitration diagram for the bus.
3. (P&H) 7.7.1
4. (P&H) 7.7.2
