

SecEDU Honours Scholarships in Security Engineering

- SecEDU has funded honours projects in cyber security
- Up to \$8000, supervision, mentoring and resources available for awesome projects
- Select one of our projects or pitch your own new project
applicants will be assessed on the quality and likely impact of their project and the likelihood of project success
- Contact us SecEDU@unsw.edu.au for more details and to discuss your project ideas
- SecEDU is a security engineering education partnership between UNSW and the CBA

Selection Criteria

The following factors will be taken into account:

- Academic merit
- Extracurricular achievement
- Evidence of motivation and self directed learning
- Proposing an awesome security-focused honours thesis project that offers outputs that create or support existing open source software projects or other projects that benefit the broader security community
